Work Experience

Technical Lead @ Parrot Tech LLC

April 2020 - Current

I work with the CTO and CISO of Parrot Tech to help build and maintain the landing page, web application, backend API, and database.

Software Engineering Intern @ Restvo

March 2020 - Current

I use the Ionic Framework, Angular, and TypeScript to help build proprietary for Restvo to help aid in the organization of the main web and mobile application. I report and work directly with the CTO of Restvo.

Front-End Engineering Intern @ Blocknomic

March 2020 - Current

I work on the UI of an open-source cryptocurrency trading platform powered by blockchain called Open Trading Platform. I work remotely with full-time engineers to develop and improve the platform.

Full-Stack Engineering Intern @ Livestockcity

February 2020 - Current

I work with Python/Django to help build a new real estate platform, hosted for the buying and selling of residential real estate deals. I work with other interns and report directly to the CEO.

Open Source Engineer Intern @ Hikaya

February 2020 - Current

I work on Activity, an open-source web application aiming to help nonprofit organizations help organize their employees, volunteers, clients, etc. Activity was recently featured in GitHub's social impact blog on the top 3 projects to sponsor.

Code Sensei @ Code Ninjas

December 2019 - Current

I work with other code senseis to help mentor students through the basics of programming, and help make facility decisions that are related to the productivity of the students.

Web Developer/Administrator @ Synergize Ventures

September 2018 - Current

I develop and maintain the corporate landing page. I administrate the website, as well as maintaining and configuring the DNS nameservers and registrars.
